

Cloud

One tab for every file your team owns.

Browse, preview, search and share across S3, WebDAV and local disks.

Browse

Folders, grid and list views that feel like a desktop file manager, on top of any storage backend.

Preview

PDFs, Office documents, photos, video, audio and source code open in the tab, no download needed.

Share

Links with a PIN and an expiry date, group sharing, and an audit log for every access.
